

FRIDGE

There is no denying the importance of a good-quality fridge at home. Mia Cucina offers a smart and stylish built-in fridge with multiple shelves providing cooling solution for plenty of fresh food. It also fits seamlessly into every kitchen design and offer you a modern interior.

AUTO-DEFROST FUNCTION

Auto-defrost function constantly conducts humidity out of the fridge interior into an external evaporation tray. Air stays dry, frost does not form, and your food stays fresher for longer.

FAVOURABLE INTERVAL

The four shelves can be flexibly adjusted to cater for a wide range of needs, with all internal compartments are easily pulled out. The fridge is also equipped with a reversible door, plastic drawer, egg tray and ice holder while the 4-star freezer compartment is a great place to store frequently used frozen food.

“SUPER COOLING” MODE

This mode rapidly cools the fridge compartment - a fantastic way to chill large quantities of newly purchased fresh food by pressing the 'Quick' button on control panel. It can be last for maximum 8 hours and once the time has elapsed, the fridge returns to its pre-set temperature.
